

Company Profile

Flexible Solutions.
Our expertise.

WHO WE ARE ? | Rewards of Flexible Solutions.

The success of any businesses clearly depends on the health of people. Leading organizations recognize that their physical workplace can help them more effectively implement their plan, make their brand stronger and hone their culture, but they often struggle with how to do this in way that is both resilient and economically viable. The key is to design the workplace as an ecosystem of interconnected and interdependent places that support the physical, cognitive and emotional needs of people, and give them choice and control over where and how they work.

Our company, LBPI Design International, have progressively established our core expertise in flexible enterprise design and furnishing solutions.

We treat the workplace as an eco-system that must provide the right balance of performance, engagement, and well-being.

We are using the framework of classifying a space based on purpose, actions, time, flexibility, and interactions within the space to better understand and assess our clientele needs.

We have been providing a wide range of clients with quality products and services. Our ability to accommodate a broad spectrum: from small start-up and large businesses, multinational corporations,

and governments has garnered more than satisfactory results and paved our reputation as ideal collaborating partners.

OUR PARTNERS | | Our organization's heart and soul.

Our strength is our people. We are comprised of proficient and well-experienced professionals who are not only technically knowledgeable but also proactive in managing projects to ensure efficiency and accuracy.

We also have the full complementary support of our principals abroad in terms of technical services, design and innovation. We continuously update our offerings to be more competitive but our commitment to extend a personalized touch on every project remains unchanged

OUR PRODUCTS | | Quality as guarantee for success.

We distribute and market internationally-sourced quality products covering a very comprehensive range that are divided in five categories; chairs, executive suite, filing system, public seating, workstations and partitions.

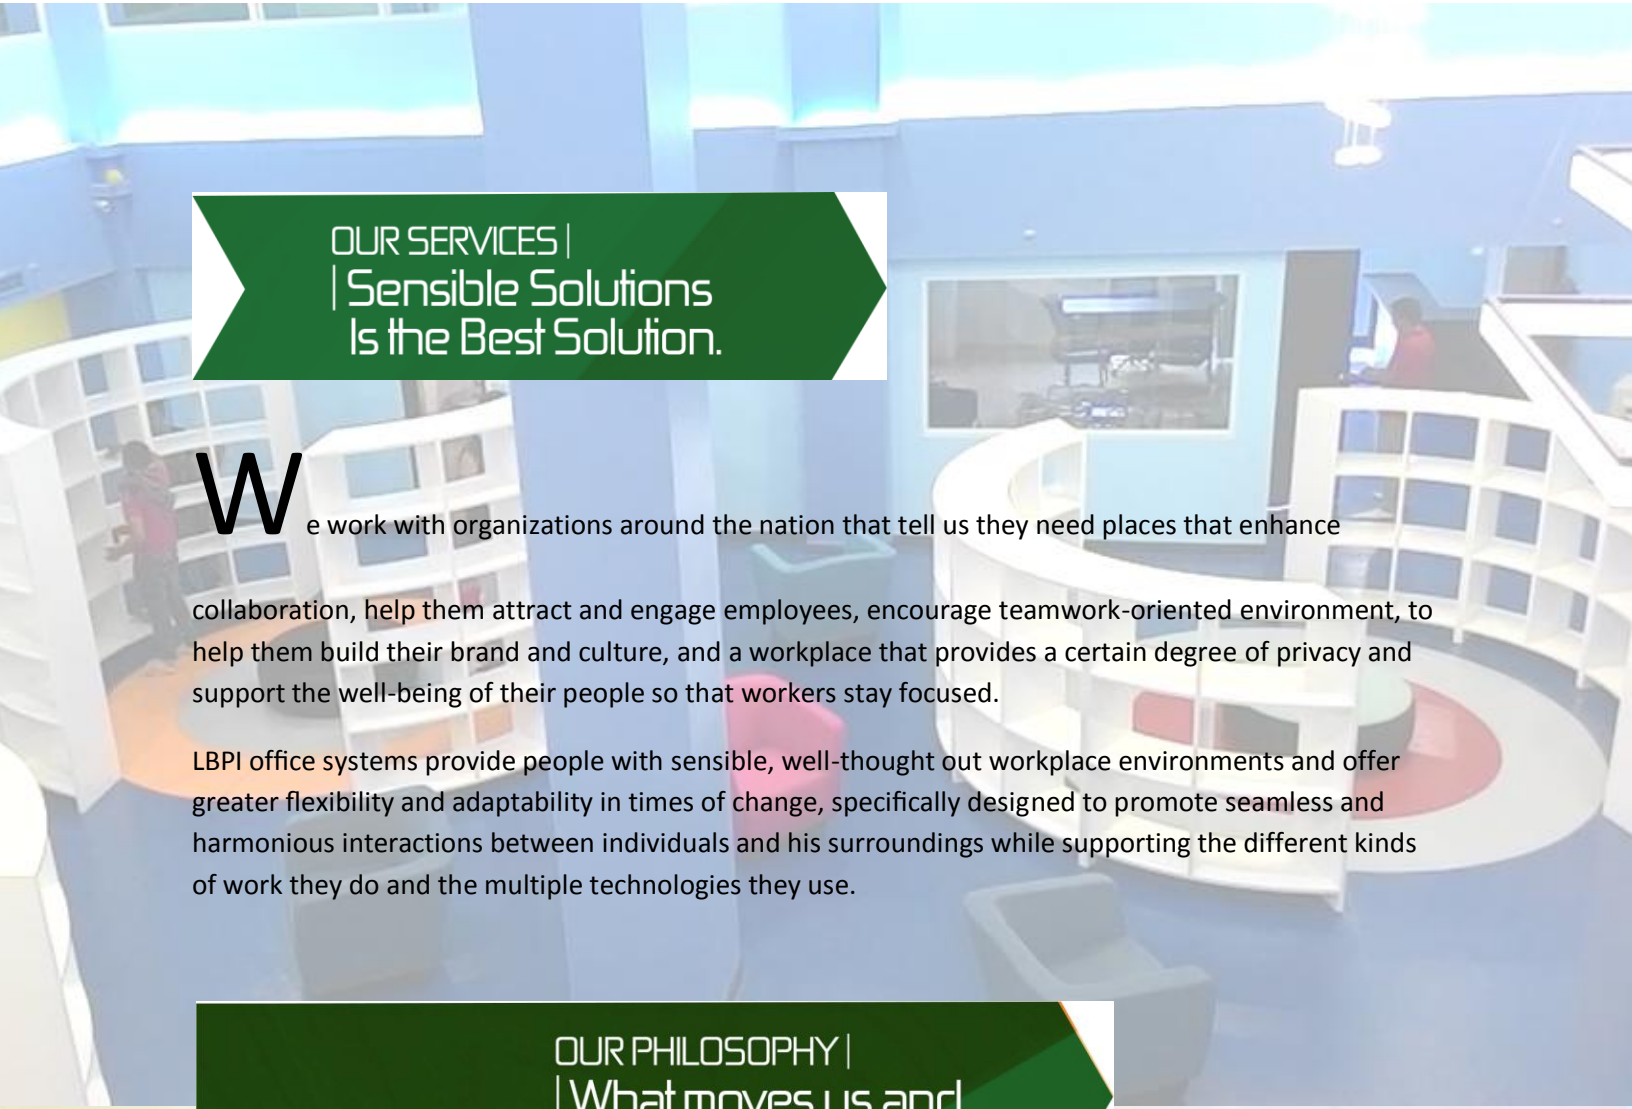

LBPI office systems continually improve and innovate to meet the challenges and changing needs of our customers. We add value and functionality to every assignment, complementing the requirements of clients in creative and inspired ways

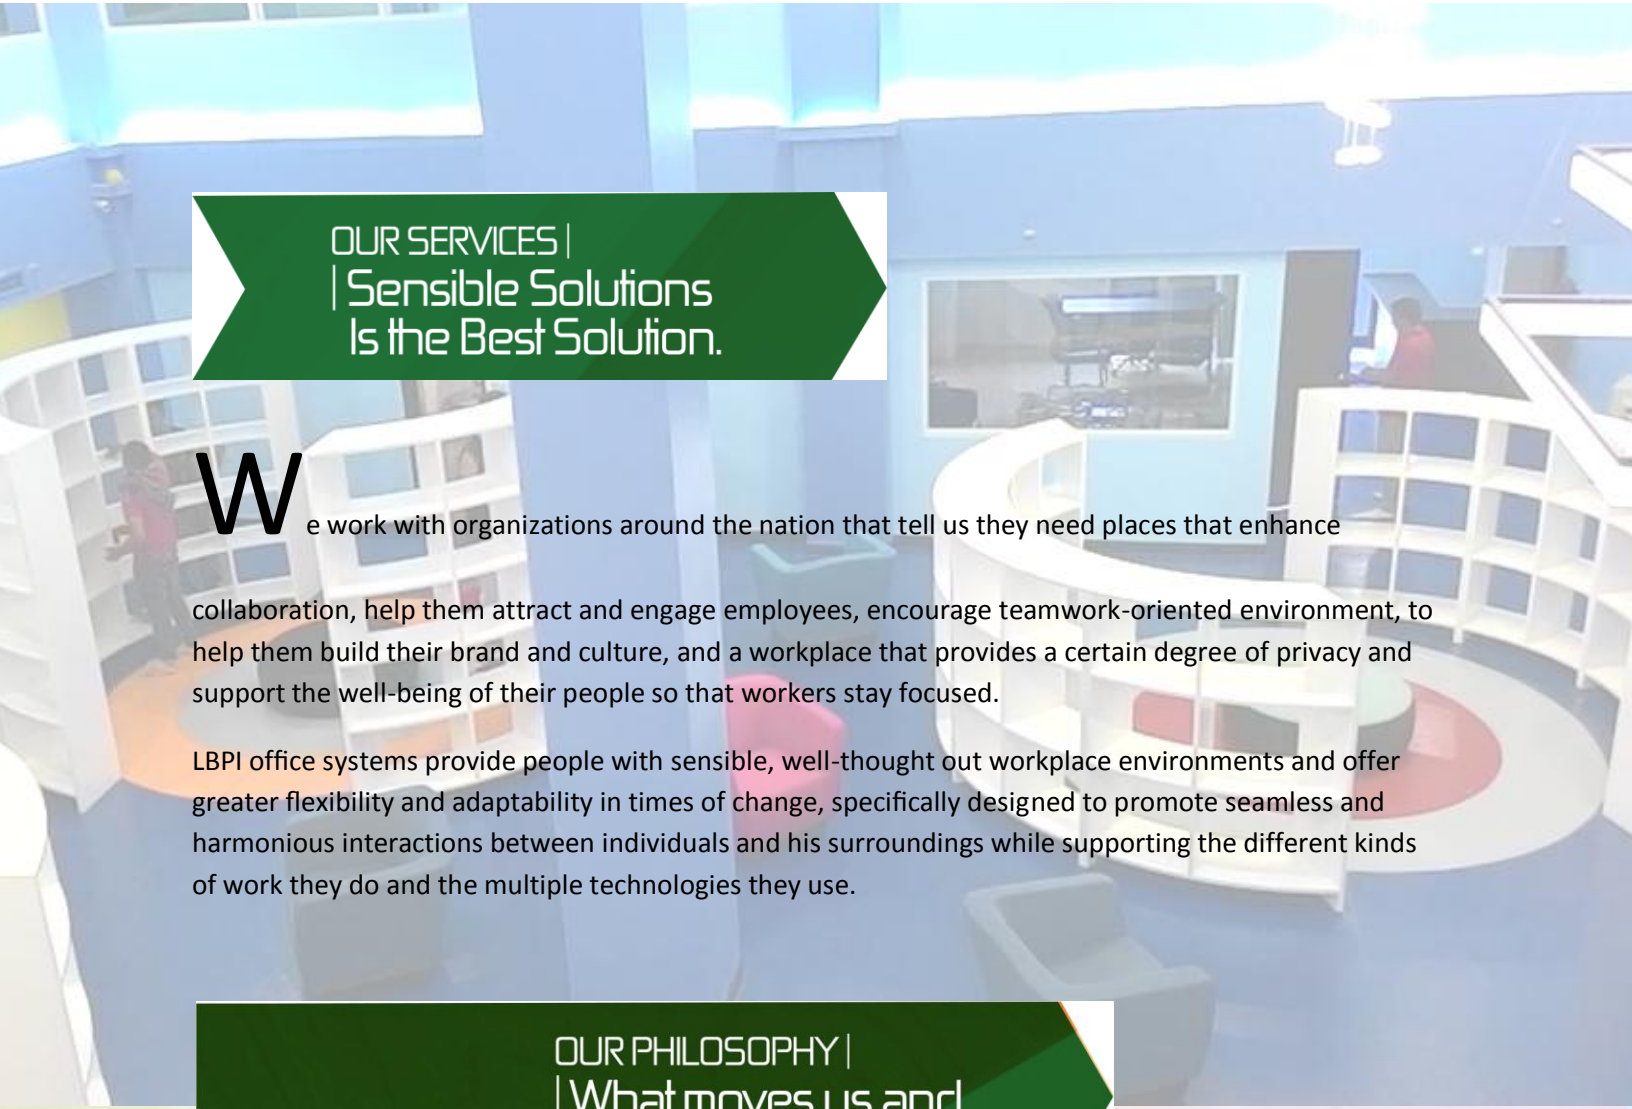

OUR SERVICES |
Sensible Solutions
Is the Best Solution.

We work with organizations around the nation that tell us they need places that enhance collaboration, help them attract and engage employees, encourage teamwork-oriented environment, to help them build their brand and culture, and a workplace that provides a certain degree of privacy and support the well-being of their people so that workers stay focused.

LBPI office systems provide people with sensible, well-thought out workplace environments and offer greater flexibility and adaptability in times of change, specifically designed to promote seamless and harmonious interactions between individuals and his surroundings while supporting the different kinds of work they do and the multiple technologies they use.

OUR PHILOSOPHY |
What moves us and
how we move you.

We see our clients as partners and take every step to build lasting relationships. We approach every project with equal degree of honesty and straightforwardness. These virtues have been fundamental pillars of company's philosophy's philosophy that serve as guiding principles for our growing success throughout the years. We work through meticulous planning, thorough groundwork and attentiveness to all aspects or details.
